Don't settle for the pain of a generic EMR.

More Information

When it comes to Electronic Health Records, one size does not fit all. In order for specialists to truly recognize the value of an EHR, they require a system that is rich with customized content and designed specifically for Rheumatologist, to mirror their workflows. RheumDoc is a Rheumatology-Specific EHR and Practice Management Solution designed by Rheumatologists. We have removed the burden of implementing a standard EMR and developed Rheumatology specific workflows which allow you to maximize your face to face time with patients, implement superior practice management, meet quality measures, and place your practice at the forefront of advancement and success. RheumDoc provides a robust integrated Revenue Cycle Management solution to maximize reimbursements, analytics and reporting which will increase efficiency and maximize return.

Built by Rheumatologists

- Rheumatology specific templates with built-in flexibility for each providers' preferred documentation method.
- A patient-friendly portal to preload your e-note with crucial information, saving providers and staff valuable time.
- Rheumatology detailed procedure templates for aspirations, injections, and infusions.
- Rheumatology detailed problem lists, order sets, and plans.
- Programmed DAS 28 ESR, DAS 44 ESR AND HAQ calculators.
- Preset joint homunculus for rapid tabulation of swollen and tender joint counts.
- Automated charge capture as procedures are documented.

From one of our Clinical Experts:

“We developed Raintree’s RheumDoc EHR in order to provide Rheumatologists an EHR system that contains a wealth of Rheumatology-specific content, to lessen the provider’s documentation time and to increase the focus on patient outcomes—making it a great fit with not only the healthcare models of today, but especially for the Value-Based healthcare model of tomorrow.”

This EMR frontloads detailed patient information, allowing you to focus on outcomes and direct patient care by automatically generating Rheumatology outcome measures from the chart—Outcome measures that will be directly related to your revenues. This system is built to address the changes we have already begun to experience and will become the standard in the future.”

Lawrence Leventhal, MD, FACP, FACR

*President, Comprehensive Arthritis Care Consultants
Chief of Rheumatology, Holy Redeemer Medical Center*

From one of our Revenue Cycle Management Experts:

“Much of the focus from the beginning of development was linking clinical operations with efficient and proficient workflows to maximize Quality Clinical Outcomes with Productivity. This system allows the clinician to focus on patient care, minimize the administrative load and maximize on reimbursement potential of fee for service, quality reporting and pay for performance.”

Chris Setzler, MBA

President, Healthcare Provider Management
